

Amberg Engineering is a successful internationally active engineering company with outstanding and long-standing experience in underground construction and special foundation engineering. More than 200 dedicated employees at home and abroad ensure high-quality services.

To strengthen our team in Regensdorf, we are looking for a (m/f)

PROJECT MANAGER

International Underground Infrastructure Projects

Your tasks:

- Identification and evaluation of new potential projects in the international market in the underground infrastructure sector.
- Support and technically advise new as well as existing customers and partners all over the world
- Preparation of prequalifications and offers
- Support the Division Director International in observing markets, consolidation of market requirements, development of market launch strategies as well as in the development of the market and division strategy.

Your scope of work and tasks is enriched by managing and coordinating of international projects and engineering tasks in tunnelling and underground construction, in particular in the design of infrastructure schemes.

Your Profile:

- Qualification as a civil engineer ideally supplemented with additional business management skills.
- Sound knowledge in designing and implementing projects relating to underground structures in an international environment.
- Experience in tunnel and underground construction (TBM, NÖT, etc.) in the metro, road and rail sectors.
- Distinct experience in the preparation of prequalifications and offers
- Sales-strong, proactive and entrepreneurial thinking.
- Good communication skills in German, English, French and if possible Spanish and/or Portuguese

Your working environment:

We offer you a demanding and exciting challenge in a Swiss company with a strong international orientation, short decision-making processes and a family and collegial corporate culture. You will have a broad scope of action with a high degree of independence.

Are you a doer type and want to actively contribute to worldwide success? Then we look forward to receiving your complete electronic application to job@amberg.ch.
